

MAGVIEW™ HOUSING

Magnetic Precision with a Low-Profile Design

Introducing the GracePort® MagView™: a low-profile panel interface housing with a patented magnetic seal. GracePort® enables through-door access to program or troubleshoot PLCs and power connections for laptops.

Why Use GracePort®?

-  GracePort® increases task productivity by 90% and minimizes risks of arc flash and electrical hazards with enhanced compliance to OSHA, NEC, & NFPA 70E/CSA Z462.
-  Protects components inside the panel from dust, oil, and other environmental contaminants by eliminating the need to open the panel door.
-  Fully customizable with countless configurations of components, housings, and power options; add custom text and logos at no additional cost with no minimum quantity.
-  Can be configured with USB-C components, GFCI, and/or international power options to charge laptops/tablets/smartphones during updates, ensuring no interruptions.
-  Assembled in Davenport, Iowa, USA and shipped within 2-3 business days. Choose authenticity and proven performance from the original panel interface connector manufacturer.

MagView™ Features & Benefits

- Ease of Use:** The magnetic seal of the housing lid guarantees secure closure. When opened, this lid magnetically attaches to the enclosure, freeing technician's hands.
- Space-Saving:** The low-profile design of the MagView™ housing extends minimally from the enclosure.
- Environmental Protection:** UV rated for outdoor use, IP66, IP69, IP69K rated, & UL Type 1*, 2, 3, 3X, 3R, 3RX, 4, 4X, 5, 12, 12K, 13.

* Lid retention screws not required.
